

# 7th Annual Summit on Elder Financial Exploitation Sponsor Prospectus

September 1, 2016

PHILADELPHIA, PA | LOEWS HOTEL

## Dear Potential Partner:

Elder financial exploitation is far more prevalent, more lethal and more expensive than is commonly known:

- Elder abuse victims are three times more likely to die than non-abused seniors, and four times more likely to go into nursing homes.
- A million people turn 60 every month. Soon older persons will outnumber the young.
- Changes in the aging brain may make elders more susceptible to fraud.
- At a minimum, seniors lose \$2.9 billion dollars to fraud annually.
- Adult Protective Services (APS) Programs work directly with victims to protect them, and with various stakeholders to prosecute offenders and to educate seniors to prevent elder financial abuse.

Numerous government agencies, industry programs, consumer protection organizations, and financial institutions address elder financial exploitation in their own spheres of influence, but all of the stakeholders need to learn from each other .

NAPSA convened a National Elder Financial Exploitation Advisory Board to

increase awareness and to develop new strategies to address this increasing problem. This Advisory Board will sponsor the Seventh National Summit in 2016.

### The Summit will:

- Examine the issue in its many and varied manifestations.
- Bring together the financial services industry, police and prosecutors, consumer advocates, federal and state regulators, researchers and adult protective services to learn what role each plays in addressing elder financial exploitation.
- Present innovative and successful best practices from a range of systems.
- Strategize on how best to coordinate information, strategies and tactics to strengthen the prevention, identification and prosecution of elder financial abuse.

The Summit is an opportunity to meet other important stakeholders and to learn the complex ways in which elder financial exploitation occurs and the many organizations addressing it in creative and effective new ways.
