

# Building (more) Bridges between the Fields of Victim Services & Adult Protective Services

Shelly L. Jackson, Ph.D.  
OVC Visiting Fellow

26th Annual NAFSA Conference, Orlando, FL

---

---

---

---

---

---

---

## Learning Objectives

- To better understand the victim services field
- To know ways in which victim services and APS fields are similar and different
- To learn ways in which APS and victim services can collaborate and benefit from each other

---

---

---

---

---

---

---

---

## Contentious History

---

---

---

---

---

---

---

---

## Cramer and Brady (2013)

- We must identify the underlying disputes so we can face them head on and work toward some reconciliation.

**RESPONDING TO VICTIMS OF ELDER ABUSE**

2015 VOCA Training Conference, Washington, DC

---

---

---

---

---

---

---

---

**Related Phenomenon**  
(Haskie, 2013)

- Abuse in later life
- Abuse of vulnerable adults
- Crimes against persons age 60+
- Self-neglect

## Can VOCA Funds be used to Fund Elder Abuse Programs?

~  
Are APS Caseworkers  
Victim Service Providers?

### Detailed Comparison

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

### Section I: Personnel

- Guiding Philosophy: Self-Determination
- Profile of Providers
- Training of Personnel
- Role of Providers

---

---

---

---

---

---

---

---

Self-Determination  
Exceptions

Autonomy      Beneficence

The slide features a central graphic of a black silhouette of a balance scale. The left pan is slightly higher and contains the word 'Autonomy' in green. The right pan is slightly lower and contains the word 'Beneficence' in green. The scale is set against a light gray background with a white rectangular area behind the pans. At the bottom of the slide, there are stylized green plants on a dark green ground line.

---

---

---

---

---

---

---

---

DV & EA (Gottlich, 1994)

- The emphasis on “best interests” standard in APS ignores the autonomy and presumed competence of older adults...
- while domestic violence relies on an autonomous and capable adult coming forward to seek help, ignoring the victims who are incapable of asserting their rights due to physical and mental limitations.

The slide has a light gray background with a white rectangular area for the text. At the bottom, there are stylized green plants on a dark green ground line.

---

---

---

---

---

---

---

---

Section II: The Victims

- Terminology
- Underlying Theories
- Definition of a Victim
- Victim Profiles
- Perpetrators

The slide has a light gray background with a white rectangular area for the text. At the bottom, there are stylized green plants on a dark green ground line.

---

---

---

---

---

---

---

---

## Victim Profiles

### APS

- Physically, cognitively, and psychologically vulnerable

### VS

- Poor and vulnerable, while those with power and resources may recover from crime without formal assistance

---

---

---

---

---

---

---

---

## Section III: The Victimization

- Prevalence of Crime Types and Rates of Victimization and Patterns
- Risk and Protective Factors
- Consequences of Victimization
- Self-Reporting & Voluntary Reporting
- **Mandatory Reporting**
- Notification to Reporters: Confidentiality and Closing the Feedback Loop

---

---

---

---

---

---

---

---

## Responsible for Responding

- Adult protective services
  - Law enforcement
  - State regulatory and licensing agencies
  - Medicaid fraud units
  - Staff of the Long-Term Care Ombudsman program
  - Federal law enforcement and regulatory agencies

---

---

---

---

---

---

---

---

**Mandated Reporting**  
Adult Protective Services

All States (except NY)

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

**Advocates' Confidentiality** (Brandt 2005; Heister, 2015)

- Duty to Report Elder Abuse
  - Mandatory reporting trumps confidentiality
  - Other exceptions: Child abuse, "Tarasoff"
- Convey Your Reporting Policy to Clients

---

---

---

---

---

---

---

---

### VAWA 2013 Sec. 40002(b)(E)

- (E) Statutorily mandated reports of elder abuse or neglect. -
  - Nothing in this section prohibits a grantee or subgrantee from reporting suspected abuse or neglect, as those terms are defined and specifically mandated by the State or tribe involved.

---

---

---

---

---

---

---

---

Purpose?

---

---

---

---

---

---

---

---

### Eligibility for Services

- Investigation
  - Capacity Assessment

---

---

---

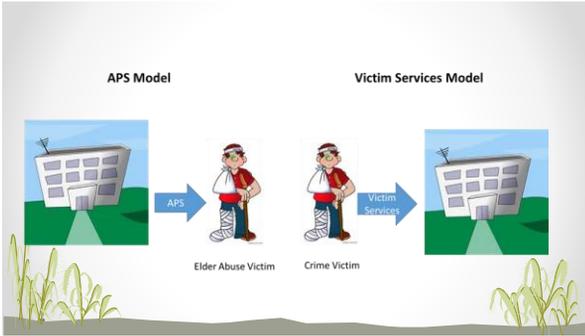

---

---

---

---

---

---

---

---

---

---

---

---

---

### Legitimate Concerns Brandl, 2005

- An investigation involves actions that have the potential to put some victims at risk
  - Home visits
  - Collateral interviews
  - Leaving literature
  - Contact with or notification of the perpetrator

---

---

---

---

---

---

---

---

### Service vs. Investigation

- 35 states define protective services
  - 20 of those define "investigation" as a type of service
- Texas: an investigation is **not** a service.

---

---

---

---

---

---

---

---

### Section IV: Services

- Formal and Informal Assistance
- Typologies of Services
- The Provision *or* Arrangement of Formal Services
- Types of Services Actually Provided
- Number of and Differences in Needs
- Number of Unmet Needs
- **Involuntary Interventions**

---

---

---

---

---

---

---

---

#### APS

- Legal (civil and/or criminal)
- Medical
- Out-of-Home Residence
- In-Home Residential
- Mental Health
- Financial Management
- Personal Needs
- Case Management
- **Guardianship Services**
- **APS Investigation**

#### Victim Services

- Emotional Support/Listening
- Safety Services
- Professional Therapy
- Criminal Justice Advocacy
- Individual Needs
- Civil Legal Assistance

---

---

---

---

---

---

---

---

### Section IV: Services

- Formal and Informal Assistance
- Typologies of Services
- The *Provision or Arrangement* of Formal Services
- Types of Services Actually Provided
- Number of and Differences in Needs
- Number of Unmet Needs
- **Involuntary Interventions**

---

---

---

---

---

---

---

---

## "Provision or Arrangement"

- |  |   |
|--|---|
| <p>APS</p> <ul style="list-style-type: none"> <li>• Statutory review           <ul style="list-style-type: none"> <li>◦ "provide or arrange" for services               <ul style="list-style-type: none"> <li>• the department shall offer services (n = 3)</li> <li>• services as agency services (n = 1)</li> </ul> </li> </ul> </li> </ul> | <p>VS</p> <ul style="list-style-type: none"> <li>• Provide direct services</li> <li>• Make referrals</li> </ul> |
|--|---|

---

---

---

---

---

---

---

---

## Dementia

(Dong, Chen, & Simon, 2014; Dong, Simon, Rogan, & Evans, 2011)

---

---

---

---

---

---

---

---

Honoring the wishes of a person with capacity demonstrates respect for the individual.

Honoring the wishes of a person without capacity is a form of abandonment.

Farber-Post

---

---

---

---

---

---

---

---

## Section V: Accessing and Using Services

- Accepting (APS) and Accessing (Victim Services) Services
- Service Utilization
- **Refusal of Investigation and/or Services**
- Few or No Service Needs
- Barriers to Accessing Services
- Predictors of Service Non-Utilization

---

---

---

---

---

---

---

---

## Refusal of Services

- If capacity, right to refuse
  - 20% refuse

---

---

---

---

---

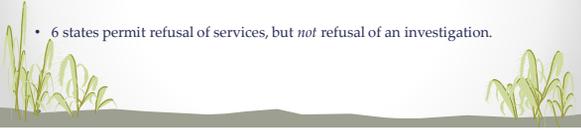

---

---

---

## Refusal of Services and/or Investigation

- 14 states allow refusal of *both* an APS investigation and the provision of services.
- 22 states permit refusal of services, but silent on the issue of refusing an investigation.
- 9 states are silent on the issue of consent for either an investigation or services
- 6 states permit refusal of services, but *not* refusal of an investigation.

---

---

---

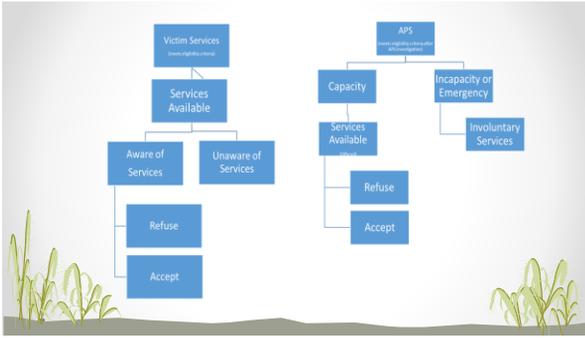

---

---

---

---

---

---

---

---

---

---

---

---

---

### Section VI: Specific Interventions to Stop Abuse or Aid Recovery

- o Separating the Victim and Offender
- o Restraining Orders
- o Interventions for Perpetrators

---

---

---

---

---

---

---

---

### Section VII: Impact of Services on Victims

- The Provision of Short-term Services
- Outcomes: Impact of Services (not victimization) on Victims
- Black Box of Services: What Accounts for Outcomes?
- The Practice of Service Providers: Lack of Accountability (or Knowledge)

---

---

---

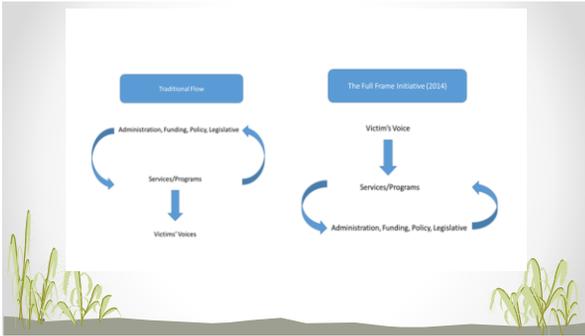

---

---

---

---

---

---

---

---

---

---

---

---

---

### Section VIII: Potential Improvements to Serving Victims

- Recognizing Differences in Perceptions
- Ask Victims What They Need
- Matching Victim-Identified Needs with Service Provision
- Matching Victim Needs and Service Availability
- The Use of Technology in Serving Victims
- Translational Research
- Improvements in Basic and Applied Research
- Diversity
- The Adoption of Multidisciplinary Teams

---

---

---

---

---

---

---

---

### Multidisciplinary Teams

- Communication and collaboration between disciplines is important

---

---

---

---

---

---

---

---

You Can't Do It Alone:  
Collaborate

### Detection is Difficult

- Gateway Programs
- Neighborhood Watch
- Faith-Based Organizations
- Financial Institutions
- Health Care Professionals
- Family
- Community Corrections

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

---

### Perceptions of Non-Responsiveness

- Eligibility criteria to open case
- Perceived confidentiality restrictions (no feedback loop)
- Time constraints
- In the field and unavailable
- Inconclusive findings or unfounded
- Refusal of services (or investigation)

---

---

---

---

---

---

---

---

### Possible Dispositions

- Person in Need of Services
  - **Accepts**
  - Refuses
- Need for Protective Services No Longer Exists
  - No longer has access
  - Adult removed from situation
- Unfounded
  - No evidence

---

---

---

---

---

---

---

---

### What Can I Expect?

- Evaluation of the report
- Investigation
- Determine whether services are needed (eligibility)
- Disposition
- Offer/provide services
- Notify reporter (?)

---

---

---

---

---

---

---

---

### Feedback Loop

- Reporters are frustrated
- Reasons
  - Confidentiality prohibitions
  - No time
- Many states permit providing information to the reporter

---

---

---

---

---

---

---

---

## Section IX: Conclusions

- **Mandatory reporting**
- **Investigation**
- **Screen for diminished capacity**
- **Involuntary Interventions**

- Risk Factors Research
- Technology
- Perpetrators and Perpetrator Interventions

---

---

---

---

---

## Examples

---

---

---

---

---
