

TIME TO TAKE ACTION!

- 1. Make yourself available to other APS workers. Let them know that they can come to you for information and guidance.**
- 2. Pay attention to your colleagues. Notice which ones have a genuine expertise in an area, and learn from them, especially.**
- 3. Read reports when you have a chance. Reports are a great way to see the slightly different perspectives that others have. It can also be an easy way to practice putting yourself in another Investigator's shoes.**
- 4. Continue practicing the exercises that we did in the workshop.**
- 5. Consider sharing your own story with others, even when the story doesn't have a happy ending. Share the lesson you learned.**
- 6. Remember that every mistake, every horror story, contains an important lesson. Learn and grow from those lessons. And share the lessons with others.**
- 7. We work in teams. And a team is only as strong as its' weakest link. Help to strengthen your team mates.**
- 8. Find a way to share information with newer Investigators on a regular basis. Be creative, and make it fun!**
